Diagnosis (ICD 10):

Procedure Codes:

Labs and Imaging should be performed in a Free-Standing, Non-regulated facility. Performing these services in a hospital setting will require additional review and authorization. For a list of these facilities, please see our website: www.marylandphysicianscare.com/find-a-provider/

High tech imaging (CT scans, MRI/MRA, PET scans) will require review with National Imaging Associates (NIA) (www1.radmd.com).

Laboratory Facility:	Imaging Facility:
NPI:	NPI:
TIN:	TIN:

Please include all necessary information (see checklist) with your submission to avoid delay or denial of service. (Please note that transplants must be done with an MPC approved Center of Excellence Facility)

Transplant Evaluation Check List

- MPC Prior Authorization Form (include ICD 10, Procedure Code and all Providers/Facilities)
- Letter of Medical Necessity
- Completed History & Physical (including pertinent social history) for the last 6 months
