Requested Medication

Rx Name:	
Rx Strength	
Rx Quantity:	
Rx Frequency:	
Rx Route of Administration:	
Diagnosis and ICD Code:	

Your patient's prescription benefit requires that we review certain requests for coverage with the prescriber. You have prescribed a medication for your patient that requires Prior Authorization before benefit coverage or coverage of additional quantities can be provided. Please complete the following questions then fax this form to the toll-free number listed below. Upon receipt of the completed form, prescription benefit coverage will be determined based on the plan's rules.

SECTION A: Please note that supporting clinical documentation is required for **ALL** PA requests.

1	What is the indication or diagnosis? [] Plaque Psoriasis (If checked, go to 2) [] Other (If checked, no further questions)		
2	Is the patient greater than or equal to 18 years of age? [If no, no further questions.]	Yes	No
3	Is the requested medication prescribed by or in consultation with a dermatologist? [If no, no further questions.]	Yes	No
4	Will the patient be evaluated for tuberculosis and other infections prior to initiation	Yes	No

If you have any questions, call:
1-888-258-8250

PRIOR AUTHORIZATION REQUEST

	and during treatment with the requested medication? [If no, no further questions.]		
5	Is the patient receiving other concurrent disease modifying antirheumatic drug (DMARD) therapies such as etanercept, adalimumab, infliximab, and certolizumab? [If yes, no further questions.]	Yes	No
6	Is the patient currently receiving the requested medication? [If no, skip to question 13.]	Yes	No
7	Has the patient been receiving medication samples for the requested medication? [If yes, skip to question 13.]	Yes	No
8	Does the patient have a previously approved prior authorization (PA) on file with the current plan? [NOTE: If the patient does NOT have a previously approved PA on file for the requested medication with the current plan, the renewal request will be considered under initial therapy. [If yes, skip to question 10.]	Yes	No
9	Does the provider have a documented clinical response of the member's condition which has stabilized or improved based upon the prescriber's assessment? [If yes, skip to question 13.] [If no, no further questions.]	Yes	No
10	Has the patient been established on the requested medication for at least 90 days? [NOTE: A patient who has received less than 90 days of therapy or who is restarting therapy is reviewed under initial therapy.] [If no, skip to question 13.]	Yes	No
11	Has the patient experienced a beneficial clinical response, defined as improvement from baseline (prior to initiating the requested drug) in at least one of the following: A) Estimated body surface area, B) Erythema, C) Induration/thickness, D) Scale of areas affected by psoriasis? [If no, no further questions.]	Yes	No
12	Compared with baseline (prior to initiating the requested medication), has the patient experienced an improvement in at least one symptom, such as decreased pain, itching, and/or burning? [No further questions.]	Yes	No
13	Has the patient tried at least two traditional systemic agents for psoriasis for at least 3 months, unless intolerant or contraindicated to two agents? [NOTE: Examples of one traditional systemic agent include methotrexate, cyclosporine, acitretin tablets, or psoralen plus ultraviolet A light (PUVA).] [If yes, skip to question 15.]	Yes	No
