Introduction

Welcome to your guide to the Maryland Physicians Care (MPC) drug coverage for prescription medications. This booklet will provide you with information on the medications that are covered under the MPC formulary.

The formulary was developed by the MPC Pharmacy and Therapeutics Committee (P&T Committee) that is comprised of physicians from various medical specialties. The P&T Committee reviews new and existing medications to ensure the formulary remains responsive to the needs of our members and providers, as well as monitoring the safety, effectiveness and cost associated with all drug categories.

The formulary is the cornerstone of drug therapy quality assurance and cost containment efforts. The review process has been successfully used by hospitals and managed care organizations to provide a comprehensive and cost-effective formulary. As you use the formulary, we invite your suggestions to improve the format or content.

Formulary Medications

The formulary is a listing of medications marketed at the time of printing and intended for use by the health plan physicians and pharmacy providers. The first column of the chart lists the drug that is covered by the plan. Brand name drugs are capitalized (e.g., AMOXIL). Generic drugs are listed in lower case and italics (e.g., *amoxicillin*). The second column lists any requirements for the drug such as prior authorization (PA), quantity limits (QLL), step therapy (ST).

Injectable medications are only covered when noted on the formulary.

The formulary applies only to medications dispensed to outpatients by participating pharmacies.

The formulary does not apply to inpatient medications or to medications obtained from and administered by a physician.

Formulary Status

The Maryland Physicians Care formulary status information can be found online with the Formulary Search Tool available on the Maryland Physicians Care website available at <https://www.marylandphysicianscare.com/providers/approved-drug-benefits.html>

Mental Health Medications

Certain mental health medications are carved out for MPC and are payable as fee-for-service through Maryland Medical Assistance. Please refer to the following website for a list of medications that are carved out and those that must be covered by MPC:

<https://health.maryland.gov/mmcp/pap/pages/paphome.aspx>

Substance Use Disorder Medications

Abuse deterrent medications are “carved out” for MPC and are payable as fee-for-service through Maryland Medical Assistance. Please refer to the following website for a list of medications that are carved out:

<https://health.maryland.gov/mmcp/pap/pages/paphome.aspx>

Effective January 2024 2

Over-the-Counter, Non-prescription Medications Policy

Some over-the-counter (OTC) products are covered according to the MPC OTC list and will require a prescription.

Generic Drug Policy

Specific drugs, which have generic equivalents are covered at a generic reimbursement level and should be prescribed and dispensed in the generic form. Providers are reminded of the following:

1. When generic substitution conflicts with state regulations or restrictions, the pharmacist must gain approval from the prescribing physician to use the generic equivalent.
2. If a physician indicates “Dispense as Written” (DAW) and completes a MedWatch form to document any adverse effects caused by previous experience with at least 2 of the generic alternatives, MPC will pay for the brand name drug.

Unapproved Use of Medications

The member’s benefit handbook states medications will be eligible for coverage only if they are FDA approved medications used for non-experimental indications. Non-experimental indications include the labeled indication(s) (FDA-approved) and other indications accepted as effective by the balance of currently available scientific evidence and informed professional opinion.

Experimental and investigational drugs, and drugs used for cosmetic purposes are not eligible for coverage.

Drugs, which have Drug Efficiency Studies Implementation (DESI) status, are not covered by MPC.

Prescriptions for Non-Formulary Medications

The MPC P&T Committee has attempted to include medications from all therapeutic needs. If a patient requires medication that is not listed on the formulary, the physician may request an exception to allow payment for the medication. It is anticipated that such exceptions will be rare and physicians should be able to find a medication on the formulary for most therapeutic needs.

However, if a health care provider wishes that a member receive a medication not covered, he/she must submit a letter explaining the necessity, past therapeutic failures, and patient identification (name, address, and member id number). The P&T Committee will monitor prescriptions written in a non-conformance with the formulary and contact physicians who prescribe non-formulary products to request compliance.

Specialty Medications

Most Specialty Medications require prior authorization. Prior authorization forms can be downloaded from the MPC website at:

<https://www.marylandphysicianscare.com/providers/drug-benefits/medication-prior-authorization/>

Oncology Medications

MPC will no longer prior authorize oncology/chemotherapy & radiation oncology services without an Eviti code. Your office should have received notification to sign up for training. If you have not had training, please go to the website www.welcometoeviti.com and sign up for training in order to receive your pin# and learn how to access the web based system, Eviti®. If you have any additional questions, please call Eviti, Inc., our oncology vendor, at 1-888-678-0990 (toll free).

Prior Authorization (PA)

Pharmacy Prior Authorization Request forms can be downloaded from the MPC website at <https://www.marylandphysicianscare.com/providers/drug-benefits/medication-prior-authorization/>

Quantity Limits (QL)

Certain formulary drugs may be prescribed only in limited quantities. Quantity limits are based on clinically approved prescribing guidelines to ensure safe and proper use. Drugs that have quantity limits are identified on the formulary in the third column with QL. In order to receive an override for a medication that has a quantity limit, please submit a request to MPC via fax at 833-896-0656 or call directly at 888-258-8250. Prior Authorization forms can be downloaded from the MPC website at <https://www.marylandphysicianscare.com/providers/drug-benefits/>

Step Therapy (ST)

The ST program requires certain first-line drugs (generic drugs or other formulary drugs) be prescribed prior to approval of specific second-line drugs. If the prerequisite first-line agents have been filled, the member will be able to fill the prescription automatically, without requiring prior authorization. The ST requirements document can be downloaded from the MPC website at: <https://www.marylandphysicianscare.com/providers/drug-benefits/>

Copayments

Effective 5/1/2024 Maryland Department of Health (MDH) is mandating Managed Care Organizations to charge copayments. Individuals under the age of 21, individuals residing in long-term care facilities, pregnant individuals and Native Americans will not be charged a copayment for their prescription medications. Family planning products and adult vaccines will also not require copayments. The following copayments are:

Up to \$3 copayment for non-preferred brand name drugs

Up to \$1 copayment for generic, preferred, and HIV/AIDs drugs

Formulary Additions

If there is a new or existing medication that you would like to have added to the formulary, you will need to complete the Drug Formulary Change Request Form and send to MPC for presentation to the P&T Committee. Forms are located in the MPC Provider Manual or you can call Provider Services at (800) 953-8854, to request a form. You will be notified in writing of the decision taken at the P&T Committee. The MPC P&T Committee meets on a quarterly basis.
