Requested Medication

Rx Name:	
Rx Strength:	
Rx Quantity:	
Rx Frequency:	
Rx Route of Administration:	
Diagnosis and ICD Code:	

Your patient's prescription benefit requires that we review certain requests for coverage with the prescriber. You have prescribed a medication for your patient that requires Prior Authorization before benefit coverage or coverage of additional quantities can be provided. Please complete the following questions then fax this form to the toll-free number listed below. Upon receipt of the completed form, prescription benefit coverage will be determined based on the plan's rules.

SECTION A: Please note that supporting clinical documentation is required for **ALL PA requests**. Pharmacy prior authorization reviews can be subject to trial with additional medications that are not listed within the criteria. The policies are subject to change based on COMAR requirements, MDH transmittals and updates to treatment guidelines.

1 Is the request an INITIAL or CONTINUATION of therapy?

☐ Initial (If checked, go to 10)

☐ Continuation (If checked, go to 2)

2 Is the patient currently receiving the requested medication?

Yes

No

[If no, skip to question 10.]

If you have any
questions, call:

Version 07.2026

PRIOR AUTHORIZATION REQUEST

3	Has the patient been receiving medication samples for the requested medication? [If yes, skip to question 10.]	Yes	No
4	Does the patient have a previously approved prior authorization (PA) on file with the current plan? [Note: If the patient does NOT have a previously approved PA on file for the requested medication with the current plan, the renewal request will be considered under initial therapy.] [If no, skip to question 10.]	Yes	No
5	Has the patient been established on therapy for at least 6 months? [Note: A patient who has received less than 6 months of therapy or who is restarting therapy is reviewed under initial therapy.] [If no, skip to question 10.]	Yes	No
6	Has the patient been adherent with the medication and is enrolled in Camzyos REMS Program? [If no, no further questions.]	Yes	No
7	Does the patient have a current left ventricular ejection fraction of greater than or equal to 50 percent? [If no, no further questions.]	Yes	No
8	Has the patient had two left ventricular ejection fractions of less than 50 percent while on a dose of 2.5 mg daily? [If yes, no further questions.]	Yes	No
9	Has documentation been submitted to confirm that the patient has experienced a clinically significant response as determined by the provider? ACTION REQUIRED: Submit supporting documentation. [Examples of a response to therapy include: stabilization or improvement in at least one symptom related to obstructive hypertrophic cardiomyopathy, improved peak oxygen consumption/mixed venous oxygen tension, decreases in left ventricular outflow tract gradient, reductions in N-terminal pro-B-type natriuretic peptide levels, decreased high-sensitivity cardiac troponin I levels, reduced ventricular mass index, and/or a reduction in maximum left atrial volume index.] [No further questions.]	Yes	No
10	What is the diagnosis or indication? ☐ Obstructive Hypertrophic Cardiomyopathy (If checked, go to 11) ☐ Other (If checked, no further questions)		
11	Is the patient greater than or equal to 18 years of age? [If no, no further questions.]	Yes	No
12	Does the patient have at least one symptom associated with obstructive	Yes	No

PRIOR AUTHORIZATION REQUEST

hypertrophic cardiomyopathy?

[Note: Examples of symptoms include shortness of breath, chest pain, lightheadedness, fainting, fatigue, and reduced ability to perform physical exercise.]

[If no, no further questions.]

13	Does the patient have New York Heart Association Class II or III symptoms of heart failure? [Note: Class II signifies mild symptoms with moderate physical activity and some exercise limitations whereas Class III denotes noticeable symptoms with minimal physical activity and patients are only comfortable at rest.] [If no, no further questions.]	Yes	No
14	Does the patient have maximal left ventricular wall thickness greater than or equal to 15 mm? [If yes, skip to question 16.]	Yes	No
15	Does the patient have familial hypertrophic cardiomyopathy with a maximal left ventricular wall thickness greater than or equal to 13 mm? [If no, no further questions.]	Yes	No
16	Does the patient have a peak left ventricular outflow tract gradient greater than or equal to 50 mmHg (at rest or after provocation [Valsalva maneuver or post exercise])? [If no, no further questions.]	Yes	No
17	Does the patient have a left ventricular ejection fraction with a lower range greater than or equal to 55 percent? [If no, no further questions.]	Yes	No
18	What is the patient's gender? ☐ Male (males are defined as individuals with the biological traits of a male, regardless of the individual's gender identity) (If checked, go to 21) ☐ Female (females are defined as individuals with the biological traits of a female, regardless of the individual's gender identity or gender expression) (If checked, go to 19) ☐ Other/unknown (If checked, no further questions)		
19	Is the patient a woman of childbearing potential? [If no, skip to question 21.]	Yes	No
20	Is there a documented contraceptive plan and negative pregnancy test? [If no, no further questions.]	Yes	No
21	Is there verification that the prescriber and patient are enrolled in Camzyos REMS Program?	Yes	No

PRIOR AUTHORIZATION REQUEST

[If no, no further questions.]

- | | | | |
|----|---|-----|----|
| 22 | Has documentation been submitted to confirm that patient has an intolerance, contraindication to, or failed treatment up to the maximally indicated dose with ALL of the following for at least 3 months: A) Non-vasodilating beta-blocker (such as metoprolol, bisoprolol, propranolol), B) Non-dihydropyridine calcium channel blocker (such as verapamil, diltiazem), C) Combination of beta-blocker and calcium channel blocker, and D) Disopyramide? ACTION REQUIRED: Submit supporting documentation.
[If no, no further questions.] | Yes | No |
| 23 | Does the patient have any of the following: A) Amyloidosis, B) Fabry Disease, or C) Noonan Syndrome with Left Ventricular Hypertrophy?
[If yes, no further questions.] | Yes | No |
| 24 | Is the medication being prescribed by a cardiologist?
[If no, no further questions.] | Yes | No |
| 25 | Does the dose of the requested medication exceed Food and Drug Administration (FDA) approved label dosing for the indication?
[Note: Dosing is 2.5 mg - 15 mg daily.] | Yes | No |

Please document the diagnoses, symptoms, and/or any other information important to this review:
